Treasurer –

- Barb reported on a number of transactions that occurred in Nov and December. The annual campaign has once again proved successful with proceeds in the range of \$3-4k which is deposited into the trustees checking account. Going forward, EV Charging will be deposited into the trustees checking account as well.

Directors Report –

- Another good month with regards to the statistics and continued increased usage. Circulation is up 1500 over the benchmark year.
- Kevin commented that the e-book vendor has been acquired by a new company so he is watching to see if there is any change in service.
- Building improvements committee has been organized and a new usage survey is planned for the spring. Utilities are doing well in comparison to the budget even without solar having come onboard yet.
- A request has been made to provide a plaque to recognize VIA and Neagley and Chase.
- A committee has been formed to help create an application for Poet Laureate.

Meeting Room Fees -

- A discussion was had about library meeting room fees vs. town fees. It was decided that Kevin would take the lead and discuss with the town to ensure the children's Activity room fees were consistent and the usage groups were consistent – regional, state (for the library to add), condo/neighborhood associations and non-profits groups (for the town to add).
- Further discussion on what a fee would provide was had and it is essentially when a group wants to have a space that is considered both “private and reserved”. To date only 4 meetings had incurred a fee since opening. Going forward in the policy, it makes sense to change the way it is stated so it is clearer. John to revise the language for the next meeting.

Recruiting new trustees –

- Personal ask, Front Porch Forum, Shelburne News, website for letters of interest by Feb 6<sup>th</sup>.
- Interviews planned for February trustee meeting.

Jane left the meeting 8:05pm
