

This report was produced on 10/30/2018

The electric usage shown on this tab is based on the utility accounts detailed in the chart below. These accounts have been identified by Efficiency Vermont as being associated with your company/town, but it may not be a complete list. If there are additional utility accounts we should be including, please contact Efficiency Vermont at 1-888-921-5990 or info@efficiencyvermont.com

Efficiency Vermont relies upon customer data (account information and monthly usage data) from Vermont electric distribution utilities for the purpose of supporting energy efficiency programs and services. As a result, the accuracy of the consumption data contained in this report is completely dependent on the quality and availability of data provided by each electric distribution utility. All utility data contained in this report is subject to regular updates and corrections as needed. If a utility account is net metered (including Solar) or has a specialized billing scenario, the Annual Usage included in this report will not reflect what is shown on your utility bill.

"Shelburne, Town of"
